**Percentage : 95**
- **X**  
Bhavani Vidyalaya ,Atpadi  
**Percentage : 87**

### Summary

Dedicated and highly motivated fresher seeking a Full Stack Developer position to leverage proficiency in MongoDB, Express.js, React, Node.js, JavaScript, HTML, CSS to contribute effectively to front-end and back-end development, and create visually appealing and user-friendly web applications

### Projects

- **Wanderlust**

Wanderlust is a dynamic web application designed to facilitate seamless property listings for homeowners and hoteliers looking to rent out their spaces. Leveraging **RESTful APIs** and the power of the **MERN stack**, this platform allows users to effortlessly create, manage, and showcase their accommodations. Hosts can provide vivid descriptions, captivating photos, pricing details, and precise locations, empowering travelers to discover their ideal stay. In turn, travelers can leave valuable reviews, ensuring an enriching experience for all.

- **Tour-Planner web-application**

A web-application developed by using ReactJS that shows popular tourist destinations in a city. The tour destinations are filtered according to interests of users and their duration of visit to a city. The application displays some information about a destination like opening-hours of that place, entryfees and also its location on a map. The application also displays tourpackages of travelling agencies and companies for that particular city

### Hobbies

- Playing volleyball
- watching Movies and Web series
